PERFORMANCE FEEDS

LMF Showtime
- Maximum Condition – Maximum Calm
- Low Sugar, Moderate Fat (6%) to enhance skin and hair coat
- Added Thiamine to keep horses calm

Daily Feeding Rate 3-8 lbs/1000 lb horse

LMF Gentle Balance
- NO GRAIN, NO MOLASSES – Extremely Low Sugar
- Calories derived from quality fiber and fat
- Formulated to avoid grain highs

Daily Feeding Rate 3-8 lbs/1000 lb horse

LMF Gold
- Highest Calorie LMF Formula
- 12% Fat from 5 different fat sources (flax, rice bran, soybean oil, sunflower seed, prilled vegetable fat)

Daily Feeding Rate 5-12 lbs per 1000 lb horse

LOW INTAKE FEED

LMF Super Supplement
- A complete supplement for horses
- Low Intake = Low Calories = Cost Effective
- Will balance nutrient deficiencies common in the west

Daily Feeding Rate 1 lb/1000 lb horse

GROWTH AND DEVELOPMENT FEEDS

LMF Development
- Designed to support fetal growth in pregnant mares
- Optimal protein/mineral levels for growing horses
- Low Intake to complement western hays

Mares: 3-8 lbs/1000 lb horse
Growing Horses: 1 lb/100 lbs BW (Max 6 lbs/day)

LMF Super Supplement
See more details for Growth and Development use on feed tags.

BACK COUNTRY/PACKING FEED

LMF TACO
- A complete feed (Forage/Grain/Supplement)
- Contains Timothy, Alfalfa, Corn and Oats – Weed Free
- High Intake – Low Energy

Daily Feeding Rate 10-15 lbs/1000 lb horse

HORSE FEEDS

- **Fixed Formulas: you know what you are feeding—every time.**
- **Innovative and cutting edge technology: your horse gets the very best available.**
- **Customized to western hays and forages: a tailored diet that includes all the nutrients your horses need, and nothing they don't .**

BIOPLEX® SEL-PLEX® Yea-Sacc®

BioPlex® proteinated minerals provide maximum absorption and retention. Minerals designed to match as closely as possible the naturally-complexed trace element compounds found in forages and grains.

Sel-Plex® Selenium is more bio-available than inorganic forms and better retained, which lets the horse build nutrient reserves against periods of increased demand with less risk of toxicity.

Yea-Sacc®, the world's leading yeast culture for horses, enhances fiber digestion and nutrient absorption allowing for increased animal performance. By improving feed efficiency, Yea-Sacc[1026] also helps to maintain body and coat condition in horses.*

***Yea-Sacc is included in all formulas except LMF Super Supplement, Development and TACO**

Sel-Plex, Bio-Plex and Yea-Sacc[1026] are all trademarks of Alltech®

SENIOR FEEDS

LMF Primetime
- Designed for underweight horses
- Designed for older horses that can still chew hay
- Pelleted feed to enhance digestion and facilitate weight gain

Daily Feeding Rate 5-10 lbs/1000 lb horse.

LMF Senior
- High Quality Fiber (Beet Pulp, Grass, Alfalfa)
- Designed for horses with chewing difficulties
- Added Glucosamine (660 mg/lb) & added yeast culture

Daily Feeding Rate 12-15 lbs/1000 lb horse. Can replace hay.

LMF Senior Low Carb
No Grain / No Molasses
Designed for Horses with chewing difficulties & carbohydrate sensitivities
High Quality Fiber (Beet Pulp, Grass, Alfalfa)
Added Glucosamine (660 mg/lb) & Added Yeast Culture

Daily Feeding Rate 12-15 lbs/1000 lb horse. Can replace hay.

LOW CARBOHYDRATE FEEDS

LMF Low NSC – STAGE 1
- No Grain, No Molasses
- Low Sugar/Starch - Max Sugar 6%, Max Starch 2%
- Replaces high sugar grain
- Feed when horses show first signs of issues/sensitivity

Daily Feeding Rate 5-10 lbs/1000 lb horse.

LMF Low NSC – COMPLETE
- No Grain, No Molasses
- Low Sugar/Starch – Max Sugar 6%, Max Starch 2%
- Designed for horses with extreme sugar sensitivity – replaces hay
- Feed to horses who have been diagnosed with a carbohydrate issue
- Offers total control over the diet when fed as a sole ration

Daily Feeding Rate 12-20 lbs/1000 lb horse. Replaces hay.

LMF Senior Low Carb
- No Grain / No Molasses
- Designed for Horses with Chewing Difficulties & Carbohydrate Sensitive
- High Quality Fiber (Beet Pulp, Grass, Alfalfa)
- Added Glucosamine (660 mg/lb) & Added Yeast Culture

Daily Feeding Rate 12-15 lbs/1000 lb horse. Can replace hay.

LMF Gentle Balance
- NO GRAIN, NO MOLASSES – Extremely Low Sugar
- Calories derived from quality fiber and fat
- Formulated to avoid grain highs

Daily Feeding Rate 3-8 lbs/1000 lb horse.

LMF HORSE FEEDS – Feed Decision Guide

NURSING FOAL

Milk Production Level of Mare?

- **Adequate** → Same diet as mare until 3 months → After 3 months of age → ***LMF Development*** 1.0 lb/100 lbs Body Weight
- **Inadequate** → ***LMF Development*** 1.0 lb/100 lbs Body Weight

WEANLING (Weaning to 12 mo)

- **Therapeutic Feeding During Presence of Developmental Orthopedic Diseases** → ***LMF Super Supplement*** .3 lbs/100 lbs Body Weight Not to exceed 1.5 lbs/day
- **Normal Growth** → ***LMF Development*** *1.0 lb/100 lbs Body Weight

YEARLING

In Training?

- **Yes** → ***LMF Showtime*** .3-.8 lbs/100 lbs Body Weight or ***LMF Gold*** .5 – 1.2 lbs/100 lbs Body Weight
- **No** → ***LMF Development*** .5 - .8 lbs/100 lbs Body Weight

2 YEARS & OLDER

SENIOR HORSE

Good Chewing Ability?

- **Yes** → ***LMF Prime Time*** .3 lbs – .8 lbs/100 lbs Body Weight along with hay
- **No** → ***LMF Senior*** **1.3 – 1.8 lbs/100 lbs Body Weight or ***LMF Senior Low Carb*** **1.3 – 1.8 lbs /100 lbs Body Weight

CARBOHYDRATE INTOLERANT HORSE

- **At Risk** → ***LMF Low NSC Stage1*** .5 – 1.0 lbs/100 lbs Body Weight or ***LMF Super Supplement*** .1 lbs/100 lbs Body Weight
- **Low Carbohydrates Required** → ***LMF Low NSC Complete*** 1.2 – 2 lbs/100 lbs Body Weight as total diet or ***LMF Senior Low Carb*** 1.3 – 1.8 lbs /100 lbs Body Weight

Maintenance & Easy Keeper

LMF Super Supplement .1 lb/100 lbs Body Weight

Light Work or Moderate Work

LMF Showtime .3 - .8 lbs/100 lbs Body Weight

or

LMF Development .3 - .8 lbs/100 lbs Body Weight

or

LMF Gentle Balance .3 – .8 lbs/100 lbs Body Weight

No grain, No Molasses
Low in Sugar & Starch

Intense Work

- **Aerobic** → ***LMF Showtime*** .3 - .8 lbs/100 lbs Body Weight or ***LMF Gold*** .5 – 1.2 lbs/100 lbs Body Weight ***High Fat Performance Feed***
- **Anaerobic** → ***LMF Race*** .8 – 1.5 lbs/100 lbs Body Weight or ***LMF Gold*** .5 – 1.2 lbs/100 lbs Body Weight

Back Country/ Packing

LMF TACO 1.3 – 2.0 lbs/100 lbs Body Weight

Brood Mare

- **Gestation**
  - **Easy Keeper** → ***LMF Super Supplement*** .1 lb/100 lbs Body Weight
  - **Normal Gestation** → ***LMF Development*** .3 - .5 lbs/100 lbs Body Weight
- **Lactation**
  - **Early Lactation** ***LMF Development*** .5 - .8 lbs/100 lbs Body Weight or **LMF Gold** .5 – 1.2 lbs/100 lbs Body Weight
  - **Late Lactation** ***LMF Development*** .3 - .8 lbs/100 lbs Body Weight

Breeding Stallion

LMF Development .3 – .8 lbs/100 lbs Body Weight

or

LMF Gold .5 – 1.2/100 lbs Body Weight

or

LMF Primetime .3 lbs – .8 lbs/100 lbs Body Weight

*Up to maximum 60% of expected mature body weight (i.e. 60% of 1,000 lb mature weight = 600 lbs) Maximum feed amount = 6 lbs/day

**Small amounts of long stem hay may be fed
